

Declaration of cooperation between SRKP CLS JEP and DeGBS

The Society for Radiobiology and Crisis Planning of the Czech Medical Society of JE Purkyně (SRKP CLS JEP), represented by the current president Assoc. Prof. RNDr. Martin Falk, PhD., and the German Society of Biological Radiation Research (DeGBS), represented by the current president Prof. Dr. rer. nat. habil. Udo Gaipf, have agreed by this letter on the cooperation between the two societies.

The societies focus on similar topics and aim to maintain and develop competences in radiation research ranging from radiation protection to the medical implementation of radiobiological findings. The cooperation should promote internationalization and will enrich both of the societies. To make people aware of the cooperation, it will be listed on the websites of the societies and in the future members of both societies are encouraged to take part in each other's conferences. Further, opportunities will be explored for our scientists (especially in the fields of research, education, and radiobiology popularization) and students to collaborate and exchange, and jointly apply for grants, as e.g., through international projects (GACR – DFG). Joint symposia on international conferences are also envisaged.

Brno, 23.10.2024, Assoc. Prof. Martin Falk

Erlangen, 23.10.2024 Prof. Udo Gaipf
